GLASGOW'S NEW MEVADA MILL

One Hundred Ton Plant to Be Erected at Cherry Creek Mine at Once.

SURVEYORS NOW AT WORK

Company Dismanteling Old Structure -Tube Concentration Process to be Used.

Decision reached by the directors of the Glasgow & Western Exploration Co., who have been spending the past week at Cherry Creek in inspection of their properties there, has been for the immediate erection of a 100-ton stamp mill tube concentrator,

been for the immediate erection of a 100-ton stamp mill tube concentrator, says the White Pine News. Preliminary work for the construction of the plant was begun yesterday and work has also been started toward dismanteling of the old mill, situated about seven miles from the camp.

Surveyors have been at work during the latter part of the week taking necessary steps for selection of the site of the new mill, which will be located about 200 yards from the main tunnel on the Star property of the exploration company. This will bring the mill within one and one-half miles of Cherry Creek proper, allowing the force of men to be engaged while building, and when the plant is in operation, to reside at that place.

As soon as the work of the surveyors is completed at the site of the mill a force of men will be put to work excavating and all the vigor possible will be put into the work so as to bring about completion of the plant at earliest possible date. It is anticipated that three months will be occupied in installation of the new stamp mill and concentrator, by the end of which time the company expects to have the machinery working on its ores.

In dismanteling of the old mill what equipment in the way of boilers and engines that will be useful after through overhauling will be moved to the site of the new works and installed. All other machinery will be entirely new and modern and when completed the Glasgow & Western people will have one of the finest and most up-to-date works of the kind in the state. The plant will be equipped with MacQues-

one of the finest and most up-to-take works of the kind in the state. The plant will be equipped with MacQuesten tube system Callow's tanks, and all

ten tube system Callow's tanks, and all other necessary machinery of the latest and most improved make.

Joseph Farren, who is managing director, and D. MacPherson Boyd, also a director of the company, have been spending the past several days perfecting arrangements for installation of the new works at Cherry Creek. They were accompanied on their trip by Mr. were accompanied on their trip by Mr Callow and A. MacQuesten, inventor of the McQuesten tables. Mr. Farren will remain at Cherry Creek until work of erection of the new plant is well un-

LOWER MAMMOTH AGAIN.

Feature of Trading Today Was This Tintie Stock in Ninety Marks.

Lower Mammoth was the feature on the exchange again this mornin, live-ly trading being done in this favorito of the Tintics at 91 and 92 cents. Yesterday's high point was not reached, but the inclination of the stock to hover close to the 90 mark is an indication of sentiment regarding the recently reported strike. Eighty-nine morning, while the highest stood The closing quotations and sales

NEW YORK QUOTATIONS. 3 LEAD, easy, - 4.50@4.60 COPPER, easy, - 13.50@13.75 Thomas R. Cutler Visits Adamson Properties Which Have Great Merit.

MAKE FURTHER INVESTMENT

Reduction Plant to Be Installed-Camp Has Produced Millions in Gold.

Thomas R. Cutler, general manager f the Utah-Idaho Sugar company, returned yesterday from making an inspection of what he believes will develop into the greatest cinnebar mine in the world. The location of the property is 14 miles southeast of Orean, a station on the main line of the Southern Pacific railroad, between Lovelock and Rye Patch, in Nevada, and the ground has been undergoing development for several years under the direction of W. G. Adamson, who was instrumental in the formation of the Nevada-Alma-

in the formation of the Nevada-Almaden company, the owner.

Mr. Cutter has been interested in the property in a small way for about two years, but until his late visit, did not realize the great possibilities that it possesses. He became so impressed with the proposition that himself and associates will make a further investment in the stock of the corporation.

"The company owns 22 "claims," said Mr. Cutler today, "and cinnebar ore has been uncovered on 18 of them. It is the intention to spend about three the intention to spend about three months more on development when steps will be taken towards the installation of a reduction plant, with capacity for the treatment of 50 tons per day, which I am informed, will cost about \$7,000.

"The vein upon which most of the development work has been done averages about 10 feet in width; the deposit lies between a contact of lime and porphyry and appears to be getting wider as explored. There are other promising velns, however, upon which some work has been done and which in some work has been done and which in all probability will respond very well."

There are few mines in the United States that produce cinnebar ore in commercial quantity. The principal ones, located in California, are owned and operated by the quicksilver trust. It is a well known fact that the California ores contain only about 3-4 of one per cent quicksilver while in the one per cent quicksilver, while in the Nevada-Almaden ores run from 2 to 4

buyer 60. Cutler says a great deal of gold has been produced in the camp; or on the flat below where interest is now the flat below where interest is now being centered. It has been estimated that as much as \$10,000,000 as been taken from placers. The entire flat, he says, is pierced with small shafts and he expresses the utmost confidence that many millions of dollars more can be extracted from the earth through the operation of dredges. The cinnebar mines are situated in what is known as American canyon.

UINTAH TREASURE HILL.

Directors Will Probably Levy an Assessment This Month.

At the meeting of directors of the Uintah Treasure Hill Mining company to be held in a few days it is very likely that shareholders will be called on for an assessment. Development work ess for some little has been in prog. 38 for some little time; new mine equipment, which in-cludes a large compressor, has been or-dered and installed. But according to the statement issued from the Knight offices in Provo on the 10th of last month the treasury was in the red as far as cash is concerned; but contained about 8,000 shares of unsald stock. If about 8,000 shares of unsold stock. If the entire was sold at the market or late quotations scarcely more than \$1, 200 would be realized therefrom. Park Cityites are very much interested in the Uintah Treasure Hill and many of them believe it will eventually develop into a producer of considerable conse-

TO USE DIAMOND DRILLS.

The news comes from Beaver county to the effect that the Majestic Copper company is going to do some develop-ment work with diamond drills. A machine is to be operated on the O. K.

UNDER A NEW NAME.

The properties in Bingham formerly belonging to the St. Joe Mining company, but which were sold under an expany, but which were soil under an ex-ecution about a year ago, have formed the basis for the organization of the Bingham & Orleans Mining company. Articles of Incorporation have been filed and the officers are R. A. Has-brouck, president; D. H. Wenger, vice president; A. W. Monte, secretary and treasurer.

CONCENTRATES.

President Charles M. MacNeill of the Utah Copper company, and a party of friends are expected to reach the city omorrow. The ore and bullion settlements re-

ported late yesterday by McCornick & Company were: Crude ore and concentrates. \$10,000; base bullion, \$40,000. A. J. McMullen of the Utah-United Copper company, articles of incorpora-tion of which will be filed in a few days, left last night for Beaver county

to give personal attention to the devel-

opment now in progress. Ingols & Taylor were making underground surveys at the Red Warrior the first part of the week. They report the Red Warrior one of the best mines in the county and turning out an exceptionally good grade of ore. The mine is shipping daily and has five teams hauling ore.—Milford Times.

Daniel Guggenheim, president of the American Smelting & Refining com-pany, is scheduled to reach the city next Monday. He will leave Monday evening for Island Park, Idaho, where vice President Silas W. Eccles is spending his summer vacation. After a week or so at Island Park, accompanied by Mr. Eccles, the noted smelter magnate will visit Ely and points on the coast where the big smelting company has interestes.

The crasure of the names of several well known old time mining stocks from the blackboard of the Salt Lake Stock & Mining Exchange, stocks that have been called regularly for a good many years, makes quite a decided change in the arrangement of the list. Until the listing fee of \$100 is paid, Boston Consolidated, Daly, Daly-West, Ontaria, Mammoth and Utah Mine, will be calssed as unlisted stocks and can be traded in only during open board

LEGAL BLANKS.

Interborough-Met...... Interborough-Met. pfd...

New York, Sept. 2.-Early operations in the stock market revealed the same characteristics as were displayed yesterday, namely, the overwhelming prominence and strength of stocks known as Harriman properties. Elsewhere there was a slow advance to a higher level, but the specialties were not as prominent as heretofore. The exclusion from active interest of all but the Harriman stocks became more marked and the general list sagged. Southern Pacific's gain reach-

ed 2%, the stock touching 1994. Balti-more & Ohio rose 24 and Central Leather 1. Westinghouse Electric declined 1.

Bonds were irregular,
St. Paul loomed into prominence af St. Paul loomed into prominence after midday, advancing 1½ to 146, and Reading rose 1%. The sympathetic effect on the general list was less marked than the movement in the Harrimans. Central of New Jersey and Pitsburg, C. C. & St. Louis gained 3. The market closed unsettled and weak. A break of 3¼ in American Smelting induced general selling of the whole list. The loss in Amalgamated Copper reached 1½ and in American Sugar 2%. Lackawanna sold down to 4¾ and International Pump preferred 3¾. Only feeble rallies resulted from covering by room shorts.

LIVESTOCK.

Give Up the Fight.

Special Correspondence.
Torrey, Utah, Aug. 23.—Two events of great importance to Wayne county happened here today. One was the stretching of the wire from Torrey to Teasdale, which will place Torrey in telephonic communication with the towns in the western part of the county and Salina, Sevier county.

The Republican county convention held here this afternoon was one of the most peaceable gatherings of its kind that has been held in Wayne county for some years past. The Insurgent element of the party, who have caused much contention in the past, but who have been repeatedly defeated, took no part in the convention, They made a strenuous effort at the Loa primary to control the convention, but signally failed, not one of their number being elected as delegates to the convention. A the convention, Volney E. King, who pledged himself if elected to work for the reelection of Senator Smoot, and to labor unceasingly for promibition and the cause of temperance, was nominated as representative to the state legislature by acclamation. A good set of men was nominated for county offices. Volney E. King, Willard Pace and Joseph Ecg kersley were elected delegates to the state convention, and the latter was named as state committeman from Wayn county. Harmony and good-will prevailed.

There is an excellent fruit orop in the county this year, and there will be good grain crops in the valley if the early frosts are delayed a little longer than usual. CHICAGO.

Chicago, Sept. 2—Moderate weakness developed in the wheat market today owing to liberal sales by several leading commission houses. The market opened \(^1\) lower to \(^1\) higher, becomber being at \(^9\) 6\) 4, Later December sold off to \(^5\) 3\) 9\(^9\).

Corn for September delivery touched a new high point for the season, 80 cents. The initial sales ranged from \(^7\) \(^1\) 6\) 4, Migher, becomber opened unchanged to \(^1\) \(^1\) 4\) 4 ligher at \(^7\) 3\) 66\(^7\) 68.

Outs were firm, opening quotations being unchanged to \(^1\) 4\) \(^1\) 3\) higher, with December at \(^5\) 50\) 4\ December later sold at \(^5\) 50\) 10 higher and further slight advances were made during the start were \(^2\) 12\) to \(^1\) higher and further slight advances were made during the early trading.

Wheat—The market gained aditional strength owing to higher prices at Minneapolis and Duluth, September advancing to \(^9\) 8\(^1\) and December \(^9\) 5\(^1\) and December \(^9\) 6\(^1\) 5\(^1\). Final quotations on September were \(^9\) 7\(^3\) and December of \(^7\) 6\(^7\) 10\(^7\) 10 mers of \(^7\) 10 mers of \(^7\
